### **Award to the best paper published in Limnetica by an AIL early-career researcher**

Limnetica offers the possibility to early-career researchers to apply for an award to the best annual paper published.

- There will be only one award per year (announced after the second issue) and will consist in a mention signed by the Editor of Limnetica (Dr. Isabel Muñoz) and the president of the Iberian Limnological Association (Dr. Núria Bonada), and a free registration for two years as a member of the Association.
- The paper must be written in English and the applicant must be the first author.
- The applicant should be a PhD student or a post-doc up to 2 years after finishing the PhD, and a member of the AIL.
- The application to the award will be sent to the author during the acceptance of the paper and, after agreement by the author, it will be evaluated by a committee composed by 3 Senior AIL members selected by the Editor.
- The items that will be evaluated are: originality, novelty, general structure of the article and quality of the discussion. The applicant can only apply once per year.
- The decision of the award winner will be announced at the Annual General Meeting of the AIL. The pdf document will be distributed to all AIL members and will be announced in the website.
