1. FERNÁNDEZ *et al.* Comparación de estaciones fijas de videos subacuáticos con la pesca eléctrica para el registro de peces y su estimación de abundancia relativa en un río andino-patagónico
13. REZENDE *et al.* Plant species is more important than urbanization for leaf litter breakdown in a semi-arid river
31. GONZALEZ-SALDIAS *et al.* Diversity of planktonic and benthic communities in the high-altitude Salar de Pedernales basin, Atacama Desert, Chile
45. MENDOZA-LERA *et al.* Controls of methane oxidation in dry streambeds
59. VIDAL-ABARCA GUTIÉRREZ *et al.* “Buceando” en el socio-ecosistema de los ríos secos: Aproximación desde la Socio-Limnología
75. LÓPEZ-RODRÍGUEZ *et al.* eDNA metabarcoding: a non-invasive method to track temporal community dynamics in temporary rivers
91. MARQUES *et al.* Rivers Under Threat: Assessing the Ecological Impact of Macrolitter in the Leça River, Portugal.
113. CHIANESE-BLANCO *et al.* Environmental parameters that shape zooplankton diversity in coastal wetlands of the Valencian Community, Spain
129. LÓPEZ-PEÑA *et al.* A study of blackfly (Diptera: Simuliidae) samples from the Cidacos River in Soria and La Rioja provinces (Spain)
147. LÓPEZ-PEÑA *et al.* Distribution and larval habitats of Anophelinae (Diptera, Culicidae) in aquatic systems of the Valencian Autonomous Region (Spain)
161. DONATO-RONDÓN *et al.* Challenges ahead for freshwater ecosystems in the Colombian Guiana Shield
177. SALDANHA-FERRARI *et al.* Cumulative intensity heatwave index as an assessment tool for climate change effects on shallow lakes
191. PORTELA. Freshwater ecosystem services resilience in a changing world
211. BANHA *et al.* Coordinate migration ensuring sexual parasitism in fish species: Extreme weather conditions induce atypically large fish dispersal movements
219. NÚÑEZ-LÓPEZ *et al.* Evaluación del stock fenotípico de *Potamorhina laticeps* en la cuenca del río Catatumbo, Colombia
233. KAPAKOS *et al.* From the laboratory to the wild: Comprehending the reproductive dynamics of the Peloponnese Killifish *Valencia robertae* for its effective conservation
249. CARTUCHE *et al.* Changes in periphyton communities with land use in tropical mountain streams in Loja (Ecuador)
267. LÓPEZ-RODRÍGUEZ *et al.* A natural history of the best studied animal groups from the Sierra Nevada watercourses
297. CRUZ-PIZARRO *et al.* Brief history of research on high mountain lakes in Sierra Nevada, Spain
311. GONZÁLEZ-OLALLA *et al.* Lessons from 30 years of multiple-stressor experiments on microbial plankton in a Spanish high-mountain lake
329. RECHE AND MORALES-BAQUERO. Biogeochemical imprints of Saharan dust in the Sierra Nevada lakes (Iberian Peninsula)
345. JIMÉNEZ-MORENO *et al.* Late Pleistocene and Holocene environmental and climate reconstruction from Sierra Nevada, Spain
379. CONDE-PORCUNA *et al.* Food web structure, biodiversity and trophic interactions in Sierra Nevada high-mountain lakes
405. DE VICENTE *et al.* Unravelling nutrient dynamics in Sierra Nevada lakes through sediment-water interactions
429. PÉREZ-MARTÍNEZ *et al.* Paleolimnological changes during the Anthropocene in Sierra Nevada lakes
